Eco-friendly Banner Stands

Above All Advertising introduces a new line of retractable and non-retractable banner stands, which foster conservation through the use of rapid renewable, organic materials, the manufacturer says. The stands can be used to support canvas, fabric and vinyl, among other materials. The retractable stand is available for banners 32.5 inches wide by 78 inches tall; the non-retractable stand can be customized for a variety of banner sizes. Above All

Advertising also offers inflatables, giant blimps, pop-up tents and more.
