Pop-Up Tents

Pop-Up Tents are perfect for trade shows, sporting events, craft shows, flea markets, art festivals, or anywhere you need a portable shelter. Designed for optimum sun protection and shade, these canopies feature built-in reliability and are constructed with the highest quality materials. The 100% polyester top is made of 600 denier, heavy-duty polyester that is water-resistant, fire-retardant and UV-protected.

Our patented aluminum frame, used for the Pop-Up Tents, weighs 30% less than most steel frames. Incredibly convenient, these portable canopies can be transported to almost anywhere that protection from the sun is needed.
