

# WARNING

**DO NOT ATTEMPT TO INSTALL OR USE THE EVO Flag BEFORE READING THE FOLLOWING.**

EVO Flag Units and Parts are not to be used for horseplay.

Use caution when setting up & installing the EVO Flag.

If you are confused by these instructions or have questions regarding installation of the EVO Flag, please contact Above All Advertising, Inc.

**IMPORTANT:** Always wear protective goggles and gloves when handling and installing the Ground Stake!

Always use 2 people when constructing your EVO Flag.

Thank you for purchasing The EVO Flag. We are sure that you will be most satisfied with your investment. Having accepted delivery of your EVO Flag you have accepted responsibility for the safe care and maintenance of this product.

## PLEASE BECOME FAMILIAR WITH THESE INSTRUCTIONS.

This will prevent problems or misunderstandings about the operation of the EVO Flag. After reading this should you still have questions, please take time to contact ABOVE ALL ADVERTISING, INC. at 866.552.2683.

The time taken to read and understand these directions could be the difference between having an excellent advertising opportunity or a potential disaster.

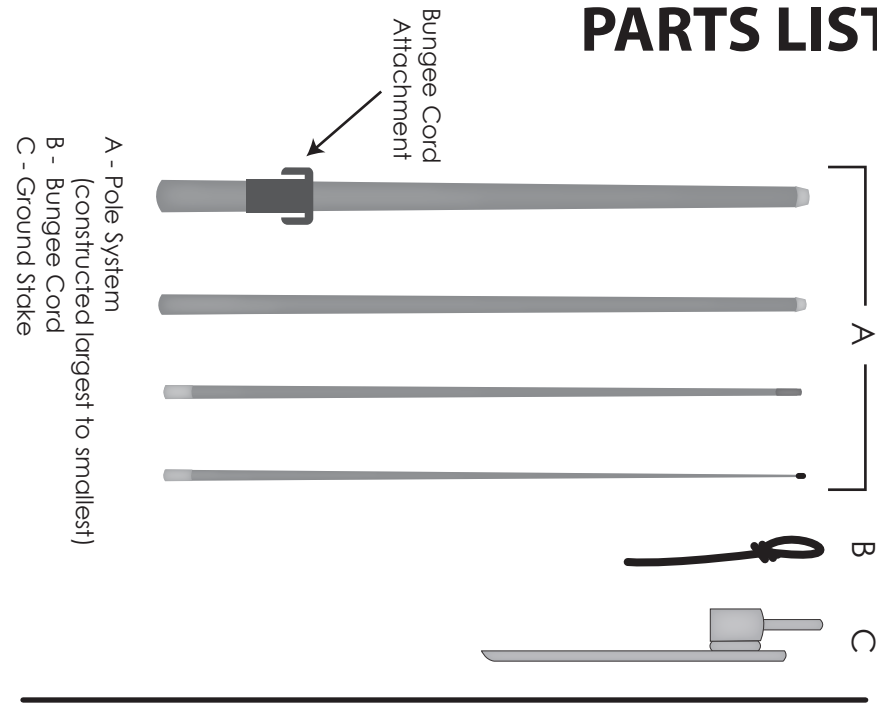

### HANDLING INSTRUCTIONS WARNINGS AND PRECAUTIONS

Ground stakes may have sharp edges! Please be extremely careful and wear gloves when handling these units! Be aware of underground power lines, water lines or any obstructions in the ground as ABOVE ALL ADVERTISING, INC. will not be held liable for misuse and negligence.

1. Never leave your EVO Flag unattended for long periods of time as vandalism or theft may occur.
2. Always store EVO Flag inside when not in use.
3. Never drag the EVO Flag on the ground or floor.
4. Never stand, walk or jump on the EVO Flag.
5. Do not leave your EVO Flag out in the rain.
6. Keep EVO Flag away from sharp edges as the fabric can snag and tear.
7. Please do not use your EVO Flag in winds above 20mph or gusty wind conditions.

# PARTS LIST

**PLEASE UNFOLD TO  
REVEAL INSTRUCTIONS**

**EVO Flag**  
**INSTALLATION & MAINTENANCE  
INSTRUCTIONS**  
**IMPORTANT**  
READ ALL WARNING STATEMENTS AND INSTRUCTIONS  
CAREFULLY BEFORE ASSEMBLING AND USING THE EVO FLAG

**\*Please refer to the images on these instructions for assistance as they will show you correct set-up.**

**CAUTION:**  
\*To avoid puncturing the flag sleeve, stop the pole system about an 1/2"-1" short of the sleeves edge.

\*Once the pole is constructed and inserted into the flag, simply wrap the bungee cord to the grommet in the flags sleeve. Then wrap the other end of the bungee cord to the bungee cord attachment on the pole system to secure your flag in place.

## HOW TO INSTALL THE EVO FLAG

**1** - Remove the Ground Stake from the carry bag for installation into the ground, dirt or soft surface. [If you need to mount the unit indoors or on a hard surface (IE. Concrete/blacktop) you will need a Ground Support Platform Stand. Please contact your distributor for assistance.]

**2** - Using a rubber mallet, drive the Ground Stake into the grass or soft ground about 11"-13" deep. (Try to drive the Ground Stake perpendicular into the grass or soft ground. This will make sure the EVO Flag is installed properly and will stand erect like designed.)

**3** - Locate & remove all support pole sections. Insert the smallest support pole into the next size wider in diameter. (The bottom support pole is the widest in diameter with the bungee cord attachment piece on it, make sure this is used as the bottom support pole.) Pole size diameter will decrease as you move up from the bottom of the pole set.

**4** - Once all of the support pole sections are pieced together, place the pole aside and locate the EVO Flag. Open the EVO Flag and find the bottom part of the black sleeve with two grommets inserted/attached. This is the bottom part of your EVO Flag.

**5** - Locate the support pole and gently feed the EVO Flag black sleeve down the support pole by entering the smallest diameter pole into the sleeve first. Take special care when feeding the "curve" near the top of the EVO Flag. The tip of the pole should enter the sleeve and should stop at the end of the sleeve with about 1/2" - 1" of room to spare.

**IMPORTANT: NEVER PUSH THE SUPPORT POLE TO THE END OF THE BLACK SLEEVE. THIS WILL OVER-TENSION THE UNIT AND CAN DAMAGE THE SLEEVE. ALWAYS LEAVE AT LEAST 1/2" - 1" OF SPACE FROM THE END OF THE SLEEVE AND THE TIP OF THE POLE!**

**6** - Remove the bungee cord and feed through the bottom grommet located on the EVO Flag black sleeve while holding the flag in place. Tie off the bungee cord to secure the flag. Once tied, take the opposite end of the bungee cord and secure to the bungee cord attachment on the pole system.

**7** - Once the bungee cord is tied-off and the flag is set-up, you are ready for use. Simply place the EVO Flag on top of the Ground Stake and set-up is complete.

**\*If you have any questions, please contact your distributor.**
